Course Number: IS218  
Course Title: Building Web Applications  
Section: 001  
Semester: Fall 2018  
Date & Time: Tuesday 10:00AM – 12:50PM  
Location: GITC 2315A

Instructor Information:
Name: David Shaohua Wang  
Position: Assistant Professor  
Office: GITC 5118  
Email: davidsw@njit.edu

Office Hours:
Thursdays: 11:00am – 12:00PM or by appointments  
Or highly recommend using course Slack

TA:  
Ying Li, PhD student  
yl622@njit.edu, office hours: TBA, contact him through course slack and make appointments

Course Materials

Catalog Description
This course provides a critical, hands-on introduction to the design of Web-based Information Systems. We will explore and discuss emerging trends, capabilities, and limitations of web technologies used to capture, store, access, and disseminate information for both businesses and online communities. Students will design and develop different types of web applications, which will then be analyzed and critiqued by the students as to their usability in actual public and private settings. Students will use an open-source web content management system throughout the course.

Prerequisites: IS 117, CS 113 or CS 115 or other computing GUR

Learning Outcomes
1. Students will be able to create a simple application using HTML, CSS, JavaScripts, PHP and MySQL.
2. Students will be able to design and implement a user registration and management process for a web application.
3. Students will be able to demonstrate fundamental concepts in web application development such as Model View Control (MVC).
4. Students will be able to demonstrate the ability to collaborate using source code management software.
5. Students will be able to describe and implement basic design patterns found in PHP
6. Students will be able to use SQL create, retrieve, update, and delete (CRUD) queries.

**Grading Category Weights**

- 2 Projects: 30% (Project #1 = 10%, Project #2 = 20%)
- 5 Quizzes: 10% (each = 2%)
- 2 Exams: 20% (each = 10%)
- Homework: 30%
- Attendance: 10%

**Grading Scale**

A: 90 - 100  
B+: 85-89    
B: 80 - 84   
C+: 75-79
C: 70 - 74  
D: 60 - 69   
F: 0 - 59

Incompletes are only given for extenuating and documented medical or personal issues.

**Grading policy**

Normally, comments on your projects, exams, and homework will be given for your references. After the comments are given, you have two days to make a reasonable rebuttal or question if you feel more clarification is needed. After two days, if no questions raised, we assume that you agree with the comments.

**Late Grading policy**

A. There will be a penalty on late projects and homework submission. 20% off per day. (e.g. if you were late for one day or less than a day, the instructor would start grading your work at 80%).
B. Quizzes will be graded to 0 automatically if you do not finish them on time.
C. You will receive 0 for any missed exams. If you know you will not make it in the day of exams, please inform the instructor at least a week beforehand to make alternative arrangements.
   There will be no make-up exams.

**Attendance**

Every class (except first lecture) will require you to **sign-in and sign-out** a paper-based attendance sheet and you are supposed to show up on time.

You are required to attend every class meeting. Students who do not show up for 4 or more lectures will receive a final score ‘F’. Sign-in and Sign-out signatures are needed for every lecture, missing any of them will be viewed as “no show up”.

**Academic Integrity Policy**

My expectation is that each person will complete original work for this course and will not copy from fellow students or tutorials online. It is OK to refer to tutorials online; however, you will be considered in violation of the NJIT honor code by submitting work found online. Any violations of the honor code will be referred to the Dean of Students for investigation and possible disciplinary action. For more information about the NJIT honor code, you should refer to this document:
TENTATIVE CLASS SCHEDULE (subject to change depending on our progress)

Below are the TOPICs covered in the course.

<table>
<thead>
<tr>
<th>Week Meetings</th>
<th>Topics</th>
<th>Assignments</th>
</tr>
</thead>
<tbody>
<tr>
<td>Week 1 Sep 4</td>
<td>Course Introduction Basics of HTML and CSS Text Editor</td>
<td>Homework 1 Create a sign up page (homework)</td>
</tr>
<tr>
<td>Week 2 Sep 11</td>
<td>More HTML, CSS, and JavaScript Front templates Env for running php and sql Linux commands (publishing your code on-line) on our free NJIT web server</td>
<td>Homework 2 Quizzes</td>
</tr>
<tr>
<td>Week 3 Sep 18</td>
<td>Introduction to PHP basic 1: • Basic syntax; • Variable types; • Constant types.</td>
<td>Quizzes</td>
</tr>
<tr>
<td>Week 4 Sep 25</td>
<td>Introduction to PHP basic 2: • String; • Number; • Array.</td>
<td>Quizzes</td>
</tr>
<tr>
<td>Week 5 Oct 2</td>
<td>Introduction to PHP basic 3: • Comparison &amp; Logical operators; • Conditional expressions; • Control statements.</td>
<td>PHP basic practice (Homework) and Quizzes</td>
</tr>
<tr>
<td>Week 6 Oct 9</td>
<td>Exam #1 (paper-based) Form Handling/practices demo (done by TA) Git commands: store your code on-line</td>
<td></td>
</tr>
</tbody>
</table>
| Week 7  
Oct 16 | Regular expression | Quizzes |
|---|---|---|
| Week 8  
Oct 23 | Basic intro to MySQL:  
• Workbench;  
• SQL statements.  
Connecting to our NJIT MySQL server | SQL query practice  
(homework) |
| Week 9  
Oct 30 | MySQL and PHP:  
• PDO connection;  
• Exceptions handling. | PDO practice  
(homework) |
| Week 10  
Nov 6 | Functions and Classes:  
• How to define a function;  
• Functions arguments and returning values;  
• How to define a class;  
• Member visibility;  
• Inheritance. | Functions and Class Practice  
(homework) |
| Week 11  
Nov 13 | Project#1 Demo Show and questions  
Introduction to PHP basic 4:  
• Cookies;  
• Sessions;  
• Date;  
• Time. | Project #1 (Due) |
| Week 12  
Nov 20 | No Class. Thanksgiving | |
| Week 13  
Nov 27 | MVC | Simple MVC practice, |
| Week 14  
Dec 4 | Demo MVC example and practices demo (Done by TA) | |
| Week 15  
Dec 11 | Project#2 Demo show and Exam 2# | Exam #2, Project #2 due |
| Week 16  
Dec 18 | No Class. | |
